ABOUT ME

Computer Science graduate from FUUAST Islamabad, with a CGPA of 3.75/4.00, ranked third in my cohort. Experienced in developing AI and computer vision applications, including gesture and voice-controlled system and real-time video analytics system. Seeking to pursue a Master's degree and contribute to advanced research.

RESEARCH INTERESTS

Machine Learning | Deep Learning | Computer Vision | Image & Video Analysis | 3D Vision | Multimodal AI | Intelligent Systems

EDUCATION & TRAINING

BS Computer Science

FUUAST Islamabad* | *CGPA 3.75/4.00* | *2026

WORK EXPERIENCE

CodeAlpha

Artificial Intelligence Intern | In Progress

Working on practical AI projects involving computer vision, object detection and tracking, natural language processing, language translation, and deep learning-based music generation.

PROJECTS

VisionSlide: AI-Enabled Gesture and Voice Controlled Presentation System | FYP

Developed a fully offline desktop application for touch-free presentation control using real-time hand gesture recognition and offline speech recognition.

Key Contributions:

- Implemented real-time hand gesture and offline speech recognition.
- Developed a PySide6 GUI for presentation control and system feedback.
- Integrated automated slide navigation through system-level input simulation.
- Combined vision and speech-based interaction into a multimodal system.

AI-Based Real-Time Video Analytics System

Developed a desktop application for real-time and recorded video analysis using object detection, multi-object tracking, and spatial-temporal analytics.

Key Contributions:

- Implemented YOLO-based object detection and ByteTrack multi-object tracking.
- Developed object counting, line-crossing, zone, dwell-time, and trajectory analytics.
- Built a PySide6 interface for camera and video-based analysis.
- Packaged the system as a standalone Windows application with an installer.

SKILLS

Technical Skills

Programming: Python | Java | C++

AI & Computer Vision: Machine Learning | Deep Learning | OpenCV | Ultralytics YOLO | ByteTrack | MediaPipe | Object Detection & Tracking | Image Processing

Frameworks & Libraries: PySide6 | NumPy | TensorFlow/Keras | scikit-learn | Streamlit

NLP & Multimodal Systems: TF-IDF | Cosine Similarity | Vosk Speech Recognition | Gesture Recognition

Tools & Databases: Git | GitHub | SQLite | PyInstaller | Visual Studio Code | Requests | music21

HONOURS AND AWARDS

Prime Minister's Youth Laptop Award | HEC Pakistan | 2023

Academic Excellence Award | FUUAST Islamabad | 2023

Merit-Based Partial Scholarship | FUUAST Islamabad | 2024

CERTIFICATIONS

Python for Everybody Specialization | University of Michigan, Coursera | 2025
